

1. Identify appropriate mounting hole location & wireway in fixture housing to wall.
2. Predrill wireway/mounting holes.
3. Raise fixture back plate to mounting location and run supply wires through back plate.
4. Make electrical connections: Connect grounding wire (green or bare copper) from the supply circuit to the green colored wire from the fixture. Connect the white wire(s) from the fixture to the white wire of the supply circuit. Connect the black wire(s) from the fixture to the black or supply wire of the supply circuit. Use UL Listed wire connectors. Secure wire connectors with UL Listed electrical tape (supplied by others).
5. Mount the fixture back plate to the wall using screws supplied.
6. Make a seal around the back plate area with caulking compound such as GE 100% or Dow Corning 100% silicone to provide a watertight seal.
7. Place the chassis assembly onto the fixture back plate insuring that all wires are free and not pinched.
8. Install and tighten (4) screws (provided) for chassis assembly as shown in figure.
9. Install lens and tighten (4) screws (provided) as shown in figure.

1. **WARNING** - Turn off the power. Before starting the installation, locate the circuit breaker in the electrical circuit panel and switch the circuit off. *Turning off the light is not sufficient to prevent electrical shock.*
2. **Remove the old fixture.** If you are replacing an existing fixture, remove all components of the old fixture (cover, mounting plate, etc...), remove the old wire connectors, and expose the supply wiring from the electrical box.
3. **Connect the wires.** Use a wire stripper to remove the protective coating of the wires. Connect the grounding wire (green or bare copper wire) from the electrical box to the green wire of the fixture. Connect the white wire from the electrical box to the white wire of the fixture. Connect the black wire from the electrical box to the black wire(s) of the fixture.
4. **IMPORTANT.** Use only *UL Listed* connectors and tape to complete the installation. Carefully read and follow any additional installation instructions provided in this sheet.
