

Finishes &  
Diffusers

# Standard Powder Coating

Whether you want the look of matte, gloss, metallic, or texture, our fade-resistant polyester powder coating will satisfy all design needs. With these cost-effective and eco-friendly choices, look forward to low-maintenance and durability for years to come. Our wide range of neutral colors are perfect for both indoor and outdoor environments. These finishes provide a universal and crisp appearance, their versatility makes them a go-to choice. Satin finishes pair nicely with contemporary and traditional designs. Textured finishes provide a soft but responsive feel that hides any long term wear and tear. Note: Contact your local representative for more more information on other RAL colors.

# Premium Finishes

P2 Brushed Aluminum

P1 Chrome

P0 Brass

P9 Brushed Nickel Plating

M16 Antique Brass Plating

Our premium finishes offer a sophisticated aesthetic, including the richness of brushed surfaces and the clean look of polished chrome or brass. Chrome and brass are a classic look with their highly reflective appearance. Aluminum is known for its cost effectiveness as an alternative to nickel. Antique brass adds a luxurious feel, perfect for a vintage accent in any room. Nickel plating is a great neutral choice, complementary in every surrounding. Our brushed finishes are smooth to the touch, the delicate brush strokes create a soft visual texture.

W1 Yolk

W2 Gloss White

W3 Textured White

M13 Anodized Silver

W13 Pearl Beige

T1 Silver Gray

T1 Shimmer Gray

T6 Pewter

Z1 Satin Bronze

Z3 Textured Bronze

B1 Satin Black

B2 Textured Black

## Specialty Diffusers

Experience the comfort of softened light illumination with the elegant appearance of fabric or alabaster. Lightway's selection of acrylic linen diffusers combines modern design and functionality. Acrylic alabaster diffusers are casted with natural hues elevating the appeal of any light source. These diffusers are perfect decorative accents, enhancing the theme of any domain. Note: Specialty diffusers and premium metal finishes are hand-crafted in the USA. All model specification sheets will provide finish and diffuser availability.

\* Standard Diffusers include: White Smooth Acrylic (WSA), White Textured Acrylic (WTA), White Smooth Polycarbonate (WSP), White Textured Polycarbonate (WTP)

White Linen Acrylic (WLA)
